# Am. Falls, Niagara Falls, from below (winter)

View from below of the American Falls at Niagara Falls in the winter. The snow and ice covering the ground in the foreground is probably part of an ice bridge formed across the Niagara River at the bottom of the falls. To the right of the falls, long icicles hang from the cliff.

### Identifier

NYSA\_A3045-78\_D47\_NiG81

Alternate Identifier
DMS ID Number: 144942
Call Numbers: D47 NiG81

Date

1895 - circa 1910
