

Long Lake West after Building Erected

View of a house that has just been constructed in Long Lake, Hamilton County in the Adirondack Mountains after the Long Lake West Fire. The surrounding area shows evidence of recent disturbance: the ground is churned up, stones and debris are strewn all around, and there are several tree stumps. Another house is in the background, and there is a railroad to the right. This image was created to record the forestry activities of the New York State Forest, Fish, and Game Commission.
