

European larch at reforestation area near Almond, New York

A young European larch (*Larix decidua*) is at the center of this image, taken at a reforestation area near Almond, New York. The area was replanted by the Civilian Conservation Corps with larch, White Pine (*Pinus strobus*) and Scotch Pine (*Pinus sylvestris*) in 1932. This image was created to record the reforestation work of the Civilian Conservation Corps under the supervision of the New York State Conservation Department.
